NATURAL LIFE PHILOSOPHY

Questa storia inizia una di quelle mattine in cui l'odore dell'aria sa di primavera, e ci spinge a soffermarci ad ispirare un po' più a fondo la sua fragranza. I sensi si risvegliano inaspettatamente, spingendoci ad una riscoperta della natura che ci circonda, così vicina eppure così distante, allontanata dalla vita frenetica che conduciamo.

Un salto indietro nel tempo suggerito da materiali e oggetti che evocano la quotidianità rurale e le atmosfere naturali di relax e semplicità. Un desiderio di vita agreste caratterizzata però da uno stile originale e ricercato per dare un tocco country anche all'abitazione di città.

Gli attori di questa storia sono quattro collezioni:

PATIO pavimento per esterni

PURO pavimento per interni ed esterni

RICORDI 25x25 rivestimento classico

per ambiente bagno e cucina

CONTEMPORANEA 20x50 rivestimento più moderno

Nelle quattro case qui presentate, questi materiali utilizzati in combinazione tra loro, a seconda delle tonalità e dei formati scelti, danno vita ad altrettante differenti declinazioni dello stile country.

La prima, dal sapore COUNTRY RUSTICO, rappresenta la vera anima bucolica, la seconda, COUNTRY CHIC, racchiude in sé un'essenza romantica ed elegante, la terza, COUNTRY NATURAL, è caratterizzata dalla semplicità dei materiali e delle forme, e l'ultima, COUNTRY MINIMAL, è indubbiamente la più essenziale e moderna.

Da qui NEW COUNTRY, il riflesso concreto di questa filosofia, una rivisitazione delle architetture passate e di un natural lifestyle visto con occhi contemporanei.

This story begins in a spring scented morning, in which the air fragrance stimulates in breathing a little more its scent. Senses suddenly awake guiding on a rediscover of surrounding nature, close and far at the same time, moved away by our frenetic life.

A jump back in the past suggested by objects and materials that summon everyday's country life and natural atmospheres of relax and simplicity. A wish of rural life, but characterized by an original and refined style to give a country touch also to city houses.

Main characters of this story are four collections:

PATIO outdoor tiles floor

PURO indoor and outdoor tiles floor

RICORDI 25x25 classic coating for bathroom and kitchen

CONTEMPORANEA 20x50 modern wall

Inside the four presented houses these materials are combined between them, according to tones and chosen sizes, giving life to as many different variations of country style.

The first, RUSTIC COUNTRY house, represents the true bucolic soul; the second, COUNTRY CHIC, embeds a romantic and elegant essence; the third, COUNTRY NATURAL, characterized by material and shape's simplicity; the last, COUNTRY MINIMAL, is certainly the most modern and essential.

All of this is NEW COUNTRY, the tangible reflection of this philosophy, a contemporary review of past architecture and natural lifestyle.

KROMOS

Sigillante professionale ad elevata resistenza, a base di leganti idraulici, quarzo, additivi specifici.
Permette di sigillare pavimenti e rivestimenti, per giunti da 0 a 8 mm.
Le caratteristiche di impermeabilità all'acqua battente e idrorepellenza, garantiscono un'elevata resistenza alle aggressioni chimiche, abrasioni ed efflorescenze. Favorisce inoltre un'elevata capacità di resistenza allo sporco.
È calpestabile dopo 3 ore.

NATURE OF THE PRODUCT

Professional and highly resistant sealant mainly consisting of hydraulic binders, quartz and specific additives.

MAIN FEATURES

Rainproof, Water-repellent, Resistant to chemical aggressions, Highly resistant to filth, Resistant to abrasions and efflorescences

FIELDS OF USE

Wall and floor sealant for 0-8 mm gaps.

RECOMMENDATIONS

It is able to withstand light foot traffic 3 hours after installation.

CONSIGLI DI POSA INSTALLATION SUGGESTIONS

Stendere a terra alcuni metri (almeno 3 mq) per controllare l'effetto d'insieme. Posare il materiale attingendo da più scatole controllandone accuratamente calibro, tonalità e scelta.
Controllare i materiali prima della posa. Reclami su materiali già posati non saranno accettati.

La posa senza fuga è fortemente sconsigliata, l'alto grado di greificazione delle piastrelle di Abk comporta modeste tolleranze di calibro, pertanto, nella posa, è consigliabile lasciare una fuga almeno di 2-3 mm fra le piastrelle.

Place some of the chosen tiles (at least 3 square meters) onto the surface to check the final effect before proceeding. When installing the tiles, pick them from different boxes and check their work-size, their shade and sorting grade.

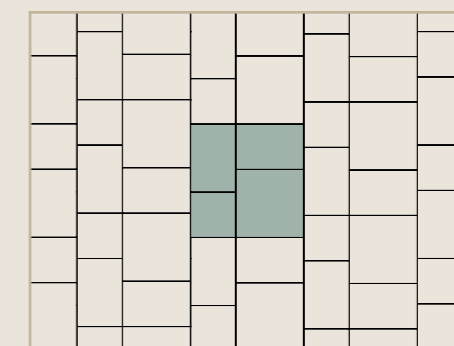

Check ceramic tiles before starting installation. This is because, once installed, any complaints relating to already-installed tiles will be rejected.

Joint-less installation is not recommended, as the high level of vitrification of Ceramiche ABK tiles leads to moderate work-size tolerances, therefore, it is recommended to allow at least a 2-3 mm grout line between adjacent tiles.

KROMOS

Sigillante professionale ad elevata resistenza, a base di leganti idraulici, quarzo, additivi specifici.

Permette di sigillare pavimenti e rivestimenti, per giunti da 0 a 8 mm.

Le caratteristiche di impermeabilità all'acqua battente e idrorepellenza, garantiscono un'elevata resistenza alle aggressioni chimiche, abrasioni ed efflorescenze. Favorisce inoltre un'elevata capacità di resistenza allo sporco.

È calpestabile dopo 3 ore.

NATURE OF THE PRODUCT

Professional and highly resistant sealant mainly consisting of hydraulic binders, quartz and specific additives.

MAIN FEATURES

Rainproof, Water-repellent, Resistant to chemical aggressions, Highly resistant to filth, Resistant to abrasions and efflorescences

FIELDS OF USE

Wall and floor sealant for 0-8 mm gaps.

RECOMMENDATIONS

It is able to withstand light foot traffic 3 hours after installation.

CONSIGLI DI POSA INSTALLATION SUGGESTIONS

Stendere a terra alcuni metri (almeno 3 mq) per controllare l'effetto d'insieme. Posare il materiale attingendo da più scatole controllandone accuratamente calibro, tonalità e scelta.

Controllare i materiali prima della posa. Reclami su materiali già posati non saranno accettati.

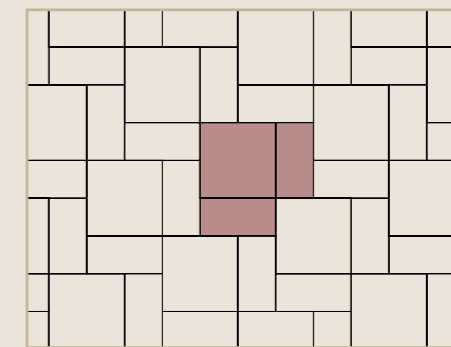

La posa senza fuga è fortemente sconsigliata, l'alto grado di greificazione delle piastrelle di Abk comporta modeste tolleranze di calibro, pertanto, nella posa, è consigliabile lasciare una fuga almeno di 2-3 mm fra le piastrelle.

Place some of the chosen tiles (at least 3 square meters) onto the surface to check the final effect before proceeding. When installing the tiles, pick them from different boxes and check their work-size, their shade and sorting grade.

Check ceramic tiles before starting installation. This is because, once installed, any complaints relating to already-installed tiles will be rejected.

Joint-less installation is not recommended, as the high level of vitrification of Ceramiche ABK tiles leads to moderate work-size tolerances, therefore, it is recommended to allow at least a 2-3 mm grout line between adjacent tiles.
