A close-up, low-angle photograph of Michelangelo's David statue. The focus is on the right side of the face, showing the eye, nose, and cheek. The hand is visible in the lower left, with fingers slightly curled. The background is a soft, out-of-focus light blue and white, suggesting a sky or a bright, airy environment. The overall tone is serene and artistic.

marmi ceramici by PAUL&Co

CERAMICI

by Paul&Co Ceramiche

Made in Italy

marmi ceramici

La classica regalità del marmo vive nei "marmi ceramici di Paul&Co" reinterpretata in uno stile più attuale declinato in soluzioni lussuosamente eleganti o minimal-chic. Uno stile la cui bellezza rimane inalterata nel tempo come la materia alla quale si ispira.

ceramic marbles

The classical grandeur of marble lives in the "ceramic marbles by Paul&Co", re-interpreted in a trendier style featuring luxuriously elegant or minimal chic solutions. A style where beauty is unchanged in time, like the material it is inspired by.

marbres céramiques

La majesté typique du marbre vit à l'intérieur des « marbres céramiques de Paul&Co », réinterprétée dans un style plus actuel, décliné en solutions luxueusement élégantes ou minimal-chic. Un style dont la beauté ne s'altère pas au fil du temps, comme le matériau dont il s'inspire.

keramisches Marmor

Die klassische Perfektion des Marmors kommt auch bei den „keramisches Marmor by Paul&Co“ voll zum Ausdruck und wird hier auf einer aktuelleren Ebene in prunkvoll-eleganten oder Minimal-Schick-Lösungen neu interpretiert. Mit diesem Stil ist die Schönheit unvergänglich, genau wie das Material, an dem es sich inspiriert.

TONALIT

NATURALMENTE

naturellement différent...

Grâce au processus de production innovant ink-jet, les caractéristiques esthétiques des « marbres céramiques » de la collection Royal de Paul&Co sont extrêmement fidèles à la matière originale, soit du point de vue de leur définition et variété graphique que de celui des légères différences de ton, caractéristiques intrinsèques de la pierre naturelle. Le revêtement mural est réalisé en pâte blanche et le sol en grès cérame émaillé.

von Natur aus anders

Durch den neuen Produktionsprozess Ink-Jet können die optischen Eigenschaften der "keramisches Marmor" der Serie Royal von Paul&Co in punkto Definition und grafischer Variabilität mit feinen Farbtonunterschieden, die beim Naturstein typisch sind, dem Originalmaterial stark ähnlich nachgebildet werden. Die Wandfliesen sind aus weißscherbigen Material und die Bodenfliesen aus glasiertem Feinsteinzeug.

a'

naturalmente diverso...

Grazie al processo produttivo innovativo ink-jet le caratteristiche estetiche dei "marmi ceramici" della serie Royal di Paul&Co sono estremamente fedeli alla materia originale sia per quanto riguarda definizione e variabilità grafica che per le leggere differenze di tono che sono caratteristiche intrinseche della pietra naturale. Il rivestimento è realizzato in pasta bianca ed il pavimento in gres porcellanato smaltato.

naturally different...

Thanks to the innovative ink-jet productive process, the esthetic features of the "ceramic marbles" from the Royal series by Paul&Co accurately reflect the original material as for definition and graphical variableness and for the light shade difference that are intrinsic in the natural stone. Wall tiles are in white body, while floor tiles in glazed porcelain stoneware.

...elegante Tonalitäten

L'elegante essenzialità del Carrara con il Nero Marquina, la classica e decisa bellezza del Marfil o del Carrara con il Verde Alpi, la delicata raffinatezza del Biancone con il Rosa Perlino, la fresca attualità del Carrara con l'Azul Macauba e la classe del Travertino con il Travertino Scabas sono gli abbinamenti proposti attingendo dalla gamma dei nove colori che compongono la serie Royal e che meglio li valorizzano senza precluderne l'utilizzo singolo più idoneo alla scelta abitativa personale. La brillantezza e lucentezza dei rivestimenti viene impreziosita da decorazioni con lustro, oro, platino, metalli e SWAROVSKI ELEMENTS incastonati nel decoro con una tecnica speciale per garantirne la durata. I pavimenti sono realizzati in finitura satinata a contrasto con il rivestimento lucido ma con le stesse caratteristiche grafiche.

The elegant essentiality of Carrara with Nero Marquina, the classical marked beauty of Marfil and Carrara with Verde Alpi, the delicate refinement of Biancone with Rosa Perlino, the fresh topicality of Carrara marble with Azul Macauba and the class of Travertino with Travertino Scabas are the suggested combinations from the range of nine colours forming the Royal series and best enhancing them; yet, they can be used as most suitably to the personal living choice even individually. The wall tile brightness and shine are embellished by decorations with lustres, gold, platinum, metals and SWAROVSKI ELEMENTS set in the decoration with a special technique to ensure their duration. Floor tiles are made with a satin finish contrasting the glossy wall tiles, still with the same graphical and chromatic features.

L'élégance essentielle du Carrara dans le Nero Marquina, la beauté classique et franche du Marfil er du Carrara dans le Verde Alpi, la délicatesse raffinée du Biancone dans le Rosa Perlino, la fraîcheur actuelle du Carrara dans l'Azul Macauba et la classe du Travertino dans le Travertino Scabas sont les assortiments proposés, déclinés selon la gamme des neuf couleurs qui composent la collection Royal et qui les mettent le mieux en valeur, sans exclure toute utilisation singulière plus appropriée au choix concernant son habitation personnelle. Les brillants et lumineux revêtements s'ornent également de décorations à base de lustre, d'or, de platine, de métaux et SWAROVSKI ELEMENTS, marquetés à l'aide d'une technique spéciale qui en garantit la solidité. Les sols sont réalisés en finition satinée contrastant avec le revêtement brillant, mais suivant les mêmes caractéristiques graphiques et chromatiques.

Der elegante Charakter des Carrara-Marmors mit Nero Marquina, die klassische und unverfälschliche Schönheit von Marfil und Carrara mit Verde Alpi, oder die zarte Raffinesse von Biancone mit Rosa Perlino, die erfrischende Aktualität von Carrara mit Azul Macauba und die Klasse vom Travertino mit dem Travertino Scabas sind die Kombinationen für die neuen Farben der Serie Royal, durch die sie am Besten zum Ausdruck kommen, ohne jedoch deren einzelne Verwendung auszuschließen, welche den individuellen Wohngeschmacksrichtungen am nächsten kommt. Die Brillanz und Helligkeit der Wandfliesen wird durch Dekore in Gold, Platin, Metall und, mit einer Spezialtechnik für garantierte Lebensdauer, im Dekor eingefasste SWAROVSKI ELEMENTS bereichert. Die Fußböden sind im Kontrast zu den glänzenden Wandfliesen satiniert, weisen jedoch die gleichen grafischen und chromatischen Eigenschaften auf.
