Ceramica Vallelunga è membro di 'U.S. Green Building Council' e i suoi prodotti rispondono ai requisiti richiesti da 'Ceramics of Italy', perché coniuga l'eccellenza italiana con la sostenibilità ambientale.

I materiali sono caratterizzati da un elevato design, in grado di qualificare gli spazi dell'abitare, frutto di moderne tecnologie che producono nel massimo rispetto dell'ambiente, con una grande attenzione alla sicurezza sul posto di lavoro, alla costante ricerca dell'ottimizzazione delle risorse impiegate, secondo i più elevati standard prestazionali.

Materie prime, servizi, prodotti, processi sono costantemente sottoposti a verifiche sul fronte del risparmio energetico, del consumo di risorse naturali, di sicurezza per gli addetti, i collaboratori, i clienti, gli utilizzatori e il territorio in cui opera.

Ceramica Vallelunga is member of 'US Green Building Council' and its products meet the standards required by 'Ceramics of Italy', because combine Italian excellence with environmental sustainability.

The materials are distinguished by an high design, able to qualify the living spaces, result of modern technologies which produce in the utmost respect for the environment, with a strong attention to security in the workplace, in steady research for optimization of resources used, according to the highest standard performances.

Raw materials, services, products, processes are constantly subjected to tests for the reduction of energy consumption, the consumption of natural resources, safety for workers, employees, customers, users and the territory in which it operates.

Ceramica Vallelunga est un membre de U.S. "Green Building Council" et ses produits répondent aux normes fixées par "Ceramics of Italy", car ils combinent l'excellence italienne à la durabilité de l'environnement. Les matériaux se caractérisent pour un haut design, en mesure de améliorer les espaces habitables, ils sont le résultat de technologies modernes qui produisent dans le plus grand respect pour l'environnement, en accordant beaucoup d'attention à la surêté au travail et à la recherche constante d'optimisation des moyens utilisés, selon les plus hauts niveaux de performance.

Matières premières, services, produits, processus sont constamment soumis à des contrôles en ce qui concerne les économies d'énergie, l'utilisation des ressources naturelles, la sécurité pour les travailleurs, les employés, les clients, les utilisateurs et le territoire dans lequel elle opère.

Керамическая фабрика Vallelunga является членом 'U.S. Green Building Council' и ее продукция отвечает требованиям 'Ceramics of Italy', потому что совмещает в себе итальянское совершенство и экологическую безопасность.

Используемые материалы характеризуются дизайном высокого качества, способного улучшить качество жилых помещений, результат современных технологий производства с максимальным вниманием к окружающей среде и соблюдением безопасности на рабочих местах, а также постоянным поиском оптимизации используемых средств согласно наиболее высоким стандартам.

Сырье, ресурсы, продукция и производственные процессы постоянно подвергаются проверке относительно энергосбережения, потребления природных ресурсов, безопасности работников, сотрудников, клиентов, конечных потребителей и территории на которой осуществляют свою деятельность.

Grazie agli standard di tutela della sicurezza, della salute e dell'ecosistema, compresa l'assenza di radioattività, le collezioni in gres porcellanato di Ceramica Vallelunga sono certificate CCC (China Compulsory Certification), marchio obbligatorio per diventare protagonisti dell'edilizia nella Repubblica Popolare Cinese.

Thanks to the standard of safety's protection, health and the ecosystem, including the absence of radioactivity, the porcelain tile collections from Ceramica Vallelunga are CCC certified (China Compulsory Certification), required mark for a leading role in the Chinese Popular Republic's building.

Grâce aux normes de protection de la sécurité, de la santé et de l'écosystème, y compris l'absence de radioactivité, les collections en grès porcelainé de Ceramica Vallelunga sont certifiées CCC (China Compulsory Certification), marque obligatoire pour obtenir un rôle de premier plan dans la construction en République Populaire de Chine.

Dank der Standards des Schutzes der Sicherheit, der Gesundheit und des Ökosystems, einschließlich der Abwesenheit von Radioaktivität, sind die Kollektionen aus Feinsteinzeug von Ceramica Vallelunga CCC- zertifiziert (China Compulsory Certification), eine obligatorische Marke, um Protagonist im Bauwesen in der Volksrepublik China zu werden.

Благодаря стандартам охраны здоровья, безопасности и экосистемы, включая отсутствие радиоактивных веществ, коллекции из керамогранита Керамической фабрики Валлеlunga сертифицированы CCC (China Compulsory Certification), обязательный знак для того, чтобы стать лидерами в строительстве Китайской Народной Республики.

Full Metal è stato studiato come elemento architettonico e di arredo per l'edilizia residenziale di pregio, di nuova realizzazione e di restauro, per interni di ambienti commerciali come ristoranti, bar e negozi con ingresso protetto.

Le superfici Full Metal, grazie all'esclusivo effetto metalizzato cangiante, con il tempo e con l'uso evidenziano minime variazioni di colore e di lucentezza che provocano il caratteristico 'invecchiamento naturale', effetto voluto per esaltare il calore e il vissuto dell'ambiente.

Per la perfetta riuscita estetica e funzionale della posa, si raccomanda un giunto di fuga di dimensione non inferiore a 2 mm; per la pulizia e la manutenzione delle piastrelle evitare l'uso di detersivi acidi o alcalini, preferendo esclusivamente prodotti con ph neutro.

Full Metal has been designed as an architectural element and furniture for residential construction and fittings, new construction and restoration, for commercial interior environments such as restaurants, bars and shops with a protected entry.

Full Metal surfaces, thanks to the metallic shimmering effect, with time and use show slight variations in color and luster that cause the characteristic 'natural aging', the desired effect to enhance the warmth and living environment.

To ensure the success of the aesthetic and functional installation, it is recommended a joint flight of no smaller than 2 mm; for cleaning and maintenance of the tiles is recommended to avoid the use of acidic or alkaline detergents, preferring only products with neutral pH.

Full Metal a été conçu comme un élément architectural et mobilier pour la construction résidentielle et les raccords, les nouvelles constructions et pour la restauration à fins commerciales des environnements intérieurs tels que les restaurants, bars et boutiques avec une entrée protégée.

Full Metal surfaces, grâce à l'effet métallique miroitant, avec le temps et l'utilisation montrent de légères variations dans la couleur et le lustre qui causent le caractère «vieillesse naturelle», l'effet désiré d'accroître la chaleur et cadre de vie.

Pour assurer le succès de la pose esthétique et fonctionnel, il est recommandé un vol commun de non inférieure à 2 mm; pour le nettoyage et l'entretien des tuiles afin d'éviter l'utilisation de détergents acides ou alcalins, préférant uniquement des produits à pH neutre.

Full Metal hat als architektonisches Element und Möbel für Wohn-Bau-und Ausstattungsbeschreibung, Neubau und Sanierung, für kommerzielle Innenraum-Umgebungen wie z. B. Restaurants, Bars und Geschäften mit einer geschützten Eintrag konzipiert.

Full Metal Oberflächen dank der metallisch schimmernden Effekt, mit der Zeit und nutzen zeigen leichte Abweichungen in Farbe und Glanz, dass das Merkmal "natürlichen Altern", den gewünschten Effekt, um die Wärme-und Lebensumfeld zu verbessern Ursache.

Um den Erfolg der Pose ästhetischen und funktionalen, empfiehlt es sich, eine gemeinsame Flug der nicht kleiner als 2 mm; zur Reinigung und Pflege der Fliesen, die Verwendung von sauren oder alkalischen Reinigern zu vermeiden, lieber nur Produkte mit neutralem pH-Wert.

Collezione Full Metal была разработана для отделки внутренних помещений: частных резиденций, ресторанов, баров, магазинов. Поверхность Full Metal, благодаря эксклюзивному металлическому покрытию, со временем подвергается минимальному изменению цвета и блеска, который можно характеризовать, как «натуральное старение». Этот эффект создан для того, чтобы подчеркнуть теплоту и уют помещения. Для безукоризненного эстетического и практичного успеха при укладке, рекомендуем делать шов не менее 2 мм. Во время уборки избегать использования мыла, содержащее в своём составе органические кислоты и жиры, или агрессивных моющих средств на кислотной основе, отдавая предпочтение простой воде или неабразивным обезжиривающим средствам.

Ceramica Vallelunga s.r.l.
Loc. Settevene Via dell'Industria n, 7 - 01036 Nepi (VT) - Italia

Anno di marcatura - Years of stamp - 05

In base al "Regolamento europeo per i prodotti da costruzione 305/2011" è obbligatorio, per la libera circolazione dei prodotti nei Paesi dell'Unione Europea, apporre la marcatura CE su tutte le confezioni di piastrelle in ceramica.
Si tratta di una dichiarazione di conformità a tutela della sicurezza del consumatore, senza la quale il prodotto non può circolare all'interno dei confini dell'Unione Europea.

La presenza sull'imballo della Marcatura CE garantisce che Ceramica Vallelunga ha ottemperato alla serie di disposizioni qui di seguito illustrate.

- Le piastrelle in ceramica contenute nell'imballo possiedono le caratteristiche previste dall'allegato ZA nella norma armonizzata UNI EN 14411
- Ceramica Vallelunga ha emesso una Dichiarazione di Prestazione (DoP) con cui si assume la responsabilità di quanto dichiarato dalla marcatura CE
- Ceramica Vallelunga si impegna a:
 - mantenere un controllo costante sulla qualità della produzione in fabbrica
 - eseguire controlli accurati per ogni nuova produzione, cambiamento delle materie prime o dei processi produttivi
 - registrare i risultati dei controlli di qualità, conservarli e fornirli su richiesta
 - assumersi la responsabilità delle caratteristiche dichiarate, indicare il campo di impiego dei propri prodotti e fornire istruzioni per il loro corretto utilizzo.

La Marcatura CE rappresenta quindi una garanzia per l'utilizzatore che il materiale acquistato possiede i requisiti richiesti dalle normative vigenti e che questi permangono sostanzialmente invariati per tutti i lotti di produzione.

N.B. La Marcatura CE è un marchio che si applica a tutte le piastrelle, indipendentemente dal fatto che siano o meno appartenenti alla prima scelta.

According to the "European Regulations for Construction Products 305/2011" it is mandatory, to obtain free product circulation within the countries of the European Union, to place CE marking on all packages of ceramic tile.
This is a declaration of conformity that safeguards consumer safety, without it the product would not be allowed to circulate within the borders of the European Union.

The presence of the CE Marking on the packaging guarantees that Ceramica Vallelunga has complied with the series of standards explained below.

- The ceramic tiles contained in the package have the characteristics expected based on the ZA attachment from the UNI EN 14411 harmonised standards
- Ceramica Vallelunga has issued a Declaration of Performance (DoP) where it takes on the responsibility for what has been declared with the CE marking
- Ceramica Vallelunga is committed to:
 - keep constant control on factory production quality
 - complete accurate controls for each new production, or change in raw materials or production processes
 - log all quality control results, keep them and provide them when requested
 - take the responsibility for the declared characteristics, indicate the field of use for their products and provide instructions for their correct use.

The CE marking therefore represents a guarantee for users that the purchased material has the requisites required by current standards and that they basically remain unchanged for every production lot.

N.B. The CE marking is a mark that is applied to all tiles, independently from the fact that they may or may not be first choice.
